

Henrico County Community Cleanup Areas (Intranet)

Henrico County's Community Maintenance Office schedules neighborhood cleanup days throughout the year in an effort to assist older communities in keeping their properties neat and free from hazards. In conjunction with community groups and volunteers, the County assists with large debris removal, yard cleanup, and home maintenance. The Community Maintenance Office fields calls daily requesting information on cleanup dates and whether or not a homeowner's property is within a cleanup area.

Prior to the development of this application, the office assistants had to refer the homeowner questions to a staff member who had the ability to run a desktop version of GIS. This simple Freeance application has only four themes and one search (Address). It was constructed and deployed in less than one day using a ArcMap map document for the map service. The simplicity makes it usable the staff without GIS training or software. Now office assistants can answer custome
